RV College of Engineering®

Go, change the world

DEPARTMENT OF
Computer Science and Engineering

Date	05th Feb 2025	Maximum Marks	60
Course Code	**IS355TBD**	Duration	100 Min
Sem	V Semester	Retest	
Course : Cloud Computing- Elective (Common to CSE, CS-CD and ISE)			

Note: Answer all Questions

Sl. No.	Part-A-Questions	M	BT	CO
1.	Illustrate Cloud Computing with a neat diagram. Also explain any five benefits and limitations of Cloud computing.	3+7	L2	CO1
2.	Draw the National Institute of Standards and Technology (NIST) and Cloud model. Explain the working functionality of both the models.	5+5	L3	CO2
3.	Draw the Cloud architecture and explain the complete cloud computing stack with relevant examples.	4+6	L3	CO2
4.	Using an example and diagram describe the working of SOA Communications implementation for different cloud providers.	4+6	L4	CO3
5	With the help of a neat diagram explain different types of Cloud Computing techniques. Give an example for each.	10	L3	CO3

SI No.	Part-B-Quiz-II: Questions	Marks	BT	CO
1	Mention any four characteristics of Cloud Computing	02	L1	CO1
2	Write the basic requirements of connecting to the Cloud for different service providers.	02	L2	CO3
3	Write any two challenges of Compliance as a Service(Caas)	02	L2	CO3
4	What are the differences between Cloud Computing and Virtualization?	02	L1	CO1
6	Name the service provider offers a customer relationship management platform and range of tools for sales, marketing and Customer service	01	L1	CO3
7	Write any two characteristics of Platform as a Service (PaaS) Providers.	01	L1	CO3

Course Outcomes:

CO1 Understand the basics of cloud computing models and virtualization.

CO2 Analyse the issues related to the development of cloud applications.

CO3 Apply the concepts to design cloud based simple applications.

CO4 Identify solutions through cloud based software for real world case studies

BT-Blooms Taxonomy, CO-Course Outcomes, M-Marks:
